this is a book for the age of resistance for the occupiers of the squares for the generation of occupy wall street the premier radical political philosopher of our time offers a devastating critique of the way neoliberalism has hollowed out democracy

neoliberal rationality ubiquitous today in statecraft and the workplace in jurisprudence education and culture remakes everything and everyone in the image of homo oeconomicus what happens when this rationality transposes the constituent elements of democracy into an economic register in vivid detail wendy brown explains how democracy itself is imperiled the demos disintegrates into bits of human capital concerns with justice cede to the mandates of growth rates credit ratings and investment climates liberty submits to the imperative of human capital appreciation equality dissolves into market competition and popular sovereignty grows incoherent liberal democratic practices may not survive these transformations radical democratic dreams may not either in an original and compelling theoretical argument brown explains how and why neoliberal reason undoes the political form and political imaginary it falsely promises to secure and reinvigorate through meticulous analyses of neoliberalized law political practices governance and education she charts the new common sense undoing the demos makes clear that far from being the lodestar of the twenty first century a future for democracy depends upon it becoming an object of struggle and rethinking

across the west hard right leaders are surging to power on platforms of ethno economic nationalism christianity and traditional family values is this phenomenon the end of neoliberalism or its monstrous offspring in the ruins of neoliberalism casts the hard right turn as animated by socioeconomically aggrieved white working and middle class populations but contoured by neoliberalism s multipronged assault on democratic values from its inception neoliberalism flirted with authoritarian liberalism as it warred against robust democracy it repelled social justice claims through appeals to market freedom and morality it sought to de democratize the state economy and society and re secure the patriarchal family in key works of the founding neoliberal intellectuals wendy brown traces the ambition to replace democratic orders with ones disciplined by markets and traditional morality and democratic states with technocratic ones yet plutocracy white supremacy politicized mass affect indifference to truth and extreme social disinhibition were no part of the neoliberal vision brown

theorizes their unintentional spurring by neoliberal reason from its attack on the value of society and its fetish of individual freedom to its legitimization of inequality above all she argues neoliberalism's intensification of nihilism coupled with its accidental wounding of white male supremacy generates an apocalyptic populism willing to destroy the world rather than endure a future in which this supremacy disappears

privatisation and commercialisation in public education asks how publicness is being redefined through the restructuring of nominally public school systems over the past few decades governments have engineered a wave of reforms in their public systems opening them to privatisation and commercialisation in public education systems competition choice and autonomy have become entrenched vectors of these reforms this edited collection carefully examines the difference between privatisation and commercialisation and traces the varying effects privatised and commercialised policy reforms have had in different educational contexts many countries have approached the thorny issues of school choice and school autonomy in different ways and this book investigates the impact of these agendas across the usa uk australia new zealand parts of europe sub saharan africa and india this book brings together contemporary international perspectives from high profile policy academics on both privatisation and commercialisation in public education systems under the provocation of how the public nature of schooling is changing this is essential reading for those interested in the idea that current education policy reforms are reshaping what might be considered core educational practices in public schooling

this open access volume analyses the development of democracy at different levels of governance from local to global the basque search for an institutional and democratic model that adapts to its social needs and solves its problems offers an interesting perspective for analyzing the way in which democracy is seeking new forms of materialization from the local to the global the volume is divided into four parts the chapters in part i analyze the tensions between the neoliberal vision of democracy and the voices contesting it with projections at different levels of government the chapters in part ii focus on the emerging framework and scales of western democracy the chapters in part iii present new forms of citizen participation paying special though not exclusive attention to new practical strategies for basque society the

volume concludes with a block of chapters on the relevance of reviewing the methodological and epistemological frameworks from which knowledge about democracy and mechanisms of citizen participation is generated part iv by delving deeper into the idea and practice of democratic governance this volume will be of interest to researchers and students from all disciplines of politics international relations sociology and law

the book sheds light on the forms of neoliberalism's political rationality by highlighting the theoretical foundations upon which they are built it relies on foucault's account of neoliberal reason in terms of a governmental rationality encompassing all aspects of human life as well as critical theory's methodology the book discloses the tensions and antinomies between the concepts neoliberalism resorts to for its own moral and theoretical justification and the historical forms of its realization by combining the rigor of the normative principles of political philosophy with contemporary historical material the book shows how neoliberalism realizes itself by negating liberty in its own name undermining democracy and annulling rights via their transformation into the morals of the new global market the core argument permeating the book is that crises are the very condition of neoliberalism's existence it states that paradoxically enough neoliberalism is facing the crises it itself produces by touching off new ones the book will appeal to students scholars and researchers of political science in general and political theory political philosophy and political history in particular interested in a better understanding of neoliberalism democracy and rights

an interdisciplinary journal of the south

while artificial intelligence ai robots bio technologies and digital media are transforming work culture and social life there is little understanding of or agreement about the scope and significance of this change this new interpretation of the great transformation uses history and evolutionary theory to highlight the momentous shift in human consciousness taking place only by learning from recent crises and rejecting technological determinism will governments and communities redesign social arrangements that ensure we all benefit from the new and emerging technologies the book documents the transformations under way in financial markets entertainment and medicine

affecting all aspects of work and social life it draws on historical sociology and co evolutionary theory arguing that the radical evolution of human consciousness and social life now under way is comparable with if not greater than the agrarian revolution 10000 bce the explosion of science philosophy and religion in the axial age 600 bce and the recent industrial revolution turning to recent major socio economic crisis and asking what can be learnt from them the answer is we cannot afford this time around to repeat the failures of elites and theoretical systems such as economics to attend appropriately to radical change we need to think beyond the constraints of determinist and reductionist explanations and embrace the idea of deep freedom this book will appeal to educators social scientists policy makers business leaders and students it concludes with social design principles that can inform deliberative processes and new social arrangements that ensure everyone benefits from the affordances of the new and emerging technologies

this book brings together a diverse group of theoreticians to explore architectural theory as a discipline assessing its condition and relevance to contemporary practice offering critical assessment in the face of major social and environmental issues of today 17 original contributions address the relevance of architectural theory in the contemporary world from various perspectives including but not limited to politics gender representation race environmental crisis and history the chapters are grouped into two distinct sections the first section explores various historical perspectives on architectural theory mapping theory s historiographical turn and its emergence and decline from the 1960s to the present the second offers alternative visions and new directions for architectural theory incorporating feminist and human rights perspectives and addressing contemporary issues such as artificial intelligence and the age of acceleration this edited collection features contributions from renowned scholars as well as emergent voices with a foreword by david leatherbarrow this book will be of great interest to graduate and upper level students of architecture as well as academics and practicing architects

the springer international handbook of educational development in asia pacific breaks new ground with a comprehensive fine grained and diverse perspective on research and education development throughout the asia pacific region in 13 sections and 127 chapters the handbook delves into a wide spectrum of contemporary topics including educational equity and quality language education learning and human

development workplace learning teacher education and professionalization higher education organisations citizenship and moral education and high performing education systems the handbook is grounded in specific asia pacific contexts and scholarly traditions using unique country specific narratives for example vietnam and melanesia and socio cultural investigations through lenses such as language identity or colonisation while offering parallel academic discourse and analyses framed by broader policy commentary from around the world

in liberal progressivism gordon hak makes the case for the value of theory and philosophy in understanding the day to day political realm of elections politicians scandals fund raising and law making running through the book is the big question of how political attitudes and actions are philosophically grounded why do people believe what they do framed as a debate between liberal progressivism and the marxist informed left and between liberal progressives and the non university educated working class an informant named gord is introduced drawing on his life experience he acts as a guide into the worlds of liberal progressivism the non university educated working class and the marxist informed intellectual left modes of existence that he has personally experienced in 11 chapters the book presents an appreciation of nonbinary relationships open ended dialectics complex systems and equilibrium theory and the importance of emotions in political life through a transdisciplinary approach the book delves into the interconnecting the worlds of politics philosophy anthropology sociology history and epistemology to produce a celebration of political theory which deserves to be widely read by students scholars and activists

this volume explores the contents forms and actors that characterize current opposition to the corporate neoliberal agri food regime designed to generate a coherent informed and updated analysis of resistance in agri food empirical and theoretical contributions analyze the relationship between expressions of the neoliberal corporate system and various projects of opposition contributions included in the volume probe established forms and rationales of resistance including civic agriculture consumer and community based initiatives labor cooperative and gender based protest struggles in opposition to land grabbing and mobilization of environmental science and ecological resistance the core contribution of the volume is to theorize and to empirically assess the limits and contradictions that characterize these forms of resistance in particular the hegemonic role of the neoliberal ideology and the ways in which it has captured processes of resistance are

illustrated through the exploration of the tension between legitimate calls for emancipation and the dominant power of neoliberalism the book contributes to the ongoing debate on the strengths and limits of neoliberalism in agri food it also engages critically with the outputs and potential outcomes of established and emerging resistance movements practices and concepts
